5. Board to Review and Possibly Approve BIDs for 11 Road & Bridge Repair Projects:

- a. Jay Kullman began the discussion by stating that these are FEMA pay and that we followed our Purchasing Policy.
- b. Rick Kaminski started by saying that there were 11 Projects that FEMA approved. Larry, Cherry and I reviewed all the BIDs. One contractor was disqualified because his BIDs came in late. Rick went on to say that there were four (4) contractors who submitted over 30 BIDs in total for all 11 projects. The approval / recommendation process was based on certain criteria that is as follows: Looking at BIDs – compared to the FEMA detailed estimate/cost and getting the biggest bang for our buck. He looked at the workload of the contractors. Some of the contractors have other projects going on in Town. We looked at the experience of the contractor as well as the technical needs of each job. Rick

used Jeff Sailer as an example when referring to the stabilization project on Hale Hollow. He said that Jeff Sailer did a similar project years ago and did a fantastic job on it. He added that we have approximately four (4) months to get all these jobs done – we have to be out of the rivers by October 1st. The following recommendations are as follows:

| | |
|--------------------------|---|
| i. Daniels Construction: | Frog City Bridge #33 Frog City Small Bridge <u>Scout Camp Road Bridge #17</u> |
| Total BIDs | \$152,700.00 |

| iv. Waters Excavation: | Scout Camp Road Bridge #46 Apple Hill Road Bridge #32 <u>Paille Road Bridge #48</u> |
| Total BIDs | \$572,765.00 |

- c. Keith Cappellini posed a few questions pertaining to the BIDs such as do we have the money? What happens if we start the jobs and we are not funded? Can we do a few at a time? Are some more important than others? What is the difference between obligated versus non-obligated?
- d. Cherry Nicoll answered that we have not received the funds for this project yet. Most of the FEMA projects we receive 50%-70% funding and we only have three (3) projects left where we have not received the money. She also noted that the funds have not been obligated yet so they're not at the State. She will check in with FEMA to see about the funds being obligated.
- e. Jay Kullman added that we have a contract with FEMA and that he is not worried. We also have the MERP grant where the funds should be coming in soon. Jay concluded with, we have it covered.
- f. Richard Ruggiano commented on his experience with the dam project and delays.
- g. Rick Kaminski discussed the deadlines for these projects and said that we should move forward.
